

## 'M/Y PLAYPEN'

43m Richmond

"M/Y Playpen visited Gold Coast City Marina and Shipyard (GCCM) twice in 2018. The first was crew respite and the crew got to experience all the Gold Coast had to offer. We were impressed with the facility and attention from the GCCM crew so committed to return to complete some yard work. Over a six week period, we completed a large list of works including some intricate and challenging engineering work including a complete C32 Caterpillar rebuild from bare block. It is not easy to rebuild two Caterpillar engines in situ but we did and to an impressive standard. Playpen also completed our ABS and Marshall Islands survey while at the yard which also included a haul out and shaft inspections. The great aspect of completing work at GCCM is the array of contractors from which you can select, the confidence in their work and knowing you have the support of the GCCM team who are ex-crew and leaders in their field".

## TESTIMONIAL

**Yacht Name:** M/Y PLAYPEN

**Beam:** 8.53m (27'12")

**L.O.A.:** 43.28m (141'12")

**Yacht Subtype:**  
Semi-displacement

**Builder:**  
Richmond

### CREW EXPERIENCE ON THE GOLD COAST

GCCM offers a full concierge service for the crew from providing a courtesy vehicle, arranging accommodation and local day trips and also keeping us up to date on local events whilst we were at the marina. Our crew always enjoy their time on the Gold Coast.
